You must leave this area and dismiss your familiar if you wish to enter. If the Barrows equipment roll is landed on, another roll is done to determine which brother's armour will drop a piece (all killed brothers have equal chance). In approximately Year 4 of the Sixth Age, Sliske lured the World Guardian into one of his twisted games, using Meg, Linza, Major Mary Rancour, and Brother Samwell as bait. This article has a strategy guide.All information on mechanics, setups, and tactics is on the subpage. If a brother spawns, kill them and move onto the next mound. They had not anticipated, however, that Sliske had ulterior motives for helping them. Dare you traverse the maze? patch 7 September 2015 (Update): Failing a Barrows puzzle room will no longer prevent the final Barrows brother from spawning. If this fails, the corruption sigil is rolled with  $1 / (50 (7 - N))$  chance if one is eligible for one, patch 11 December 2012 (Update): A black texture no longer obscures the camera in the large Barrows crypt. patch 3 December 2013 (Update): Fixed the animation on the torch near the Barrows well. When Sliske "died", the brothers (and Linza) were freed of Sliske's control. This article has a money making guide here.Description: High level BarrowsPlease add tips to the subpage, rather than the article below. The crypt will begin to collapse around you. In a fit of temper over the World Guardian snooping around in his private journals, Sliske reveals that the whole game was a setup, and that Linza had come to him for protection from the Dragonkin, from whom she'd stolen the secrets of smithing dragon metal, along with some dragon ore. Tumulus is Latin for "mound" or "small hill". In addition, wearing a ring of wealth or higher luck modification has a chance to add one extra reward to the chest from an entirely separate table[1]. ^ If the random number lies between 1,005 and 1,010, inclusive. Sliske's ally Azzanadra had requested for this icon to be guarded before the latter's imprisonment in Jaldraocht Pyramid, so that it could later be used to re-establish contact with the banished Zaros. In return for a harder fight (up to four players may battle them), players will find themselves greatly rewarded upon defeating them. This is because there are less equipment drops from Akrisae than Ahrim. Because of this, special consideration should be given to the methods with and order in which the

brothers are now affected by the Ghost Hunter armour's benefits. Originally, Torag wanted to sign up for the crusades, but Guthan persuaded all of his brothers to join after an incident where he killed Commander Jaycliff in a drunken fit of rage after Ahrim had killed Isolde, his lover. ^ a b c Triskelion fragments are dropped in order. You can kill them to add extra possible loot rolls. The graphical update changed the looks of the area, added mist to the crypt, changed the Barrows brothers from purple ghosts to corporeal foes, and, for a week following the release, gave a 1 in 10 chance of doubling rewards. Sliske, instead of directly taking the Barrows Brothers, decided it would be fun to have them almost succeed in their goal before claiming them, a typical characteristic of the Mahjarrat. patch 20 August 2018 (Update): Killcount and other interfaces in Barrows have received a slight graphical improvement. patch 13 August 2013 (Update): The Barrows Brothers' heads no longer appear squished when prayer is drained from the Barrows area effect. As the army began its return, Sliske cast a magical spell on the crypts, corrupting the bodies of the brothers, turning them into his newest wights, and binding them to guard a very powerful artefact. Only some doors will open, so simply follow the openable doors until you find one leading to the centre. At this point, it's advisable to teleport out - though you can run through the maze backwards to escape if you wish. For the set of armour and weapons, see Barrows equipment. If the Barrows totem, corruption sigil, and amulet of the forsaken rolls fail, the drop is affected by the killed standard monsters in the crypt: A random number between 0 and

{\displaystyle \min(L,1000)+2N}

 is rolled where 

L

{\displaystyle L}

 is the total level of monsters killed, with a maximum value of 1014.[1] ^ If the random number lies between 0 and 379, inclusive. Sliske, in his arrogance, failed to anticipate that the World Guardian's meddling greatly interrupted his control over the Barrows wights. patch 9 April 2018 (Update): Removed the ability to use a legendary familiar with an infused BoP pouch inside the barrows area. Linza the Disgraced's equipment[edit | edit source] This loot table is rolled first if Linza the Disgraced was killed. The army quickly retreated from Morytania, realising they could never succeed without their former leaders' prowess. ^ If the random number lies between 380 and 504, inclusive. update 9 May 2005 (Update): During the graphical update in January 2012, it was possible to get a draconic visage from the barrows chest, which only lasted a week. The January 2012 Behind the Scenes article confirmed that an update was coming to the minigame, which was introduced on the 4 January update. The following process is followed: N 

{\displaystyle N}

 times, meaning it is possible to obtain multiple pieces of Barrows equipment from a single chest. Fixed an issue where the Barrows tombs would sometimes start to collapse early if the player used the quick loot feature on the Barrows chest. patch 14 October 2019 (Update): Dangerous way music track now automatically play once you enter the barrows. ^ a b c d e f g h i j k l m n o p q r s t The chance to obtain any item from the table is

, so the drop rate for this item specifically (as there are 4 items this brother can drop) is at most 1/1,568 by only killing the respective brother. Killing the brother that popped up again however, will cause it to count as a creature instead. patch 11 September 2017 (Update): An incorrectly coloured tile in Linza's tomb in the Barrows has been released, and, with the help of an adventurer who manages to steal the Barrows Icon from the brothers, re-established communication with Zaros in time for the Mahjarrat Ritual of Rejuvenation. Strategy[edit | edit source] The very basic strategy of the minigame is as follows: Dig at each 'mound' in turn to enter the crypt, and then check the sarcophagus inside. Objective[edit | edit source] The objective of the Barrows minigame is to defeat the eight Barrows brothers: Ahrim the Blighted, Dharok the Wretched, Guthan the Infested, Karil the Tainted, Torag the Corrupted, Verac the Defiled. Drop order[edit | edit source] First, if Linza the Disgraced was killed, there is a 1 in 192 chance to obtain one of her items.[2][3] If this fails due to failing the roll or not killing her, another piece of Barrows equipment is rolled with the chance

. patch 3 August 2015 (Update): An issue where it was possible to chop a dead swamp tree near the Barrows minigame from the wrong side of a wall has been fixed. ^ If the random number lies between 505 and 629, inclusive. For its sequel, see Barrows: Rise of the Six. Furthermore, the amulet of the forsaken is rolled at some point during this process[4]; it is unknown where the roll takes place or what the chance of success is. patch 20 October 2014 (Update): A swamp tree no longer clips through the Barrows entrance arch. Shortly after said ritual, which the adventurer attends with several Temple Knight allies, Sliske attempted to claim them in a similar way. You will be placed inside a maze. As the brothers and their accompanying army progressed further into enemy territory in Morytania, Sliske followed them until the brothers became weakened. It is currently unknown if this is a glitch. The Barrows brothers and sister are very strong, each with very high defence, although all of them possess weaknesses which can be exploited. Proceed through killing all the brothers in the other mounds. If you are presented with a prompt asking if you wish to go into a hole, decline and exit the crypt, noting which mound the hole is located. Soon, the brothers died of their infected wounds simultaneously in the army's camp. Sliske was disappointed that he did not claim what he wanted, but was content enough with a new wight. ninja 25 April 2016 (Update): Fixed an issue where the 'discard' option would not work for objects when looting the Barrows chest. ninja 16 January 2017 (Update): The Barrows kill counter overlay now shows when above ground in the Barrows area. This article is about the minigame. Some updates may not be included - see here for how to help out! patch 3 August 2020 (Update): It is no longer possible to spawn a duplicate Barrows Brother by clicking on their sarcophagus as they die. Your familiar is forced to leave as it cannot remain here." The familiar will be automatically dismissed, dropping everything it is carrying. patch 31 May 2016 (Update): Corrected an issue with spawning multiple NPCs in the barrows minigame. If you attempt to enter with a familiar, you will be forced out with a message saying "You cannot enter this area with a familiar. ^ a b c d e f g h i j k l The chance to obtain any item from the table is

{\displaystyle 1/\max(450-58N,73)}

, so the drop rate for this item specifically (as there are 6 items this brother can drop) is at most 1/2,352 by only killing the respective brother. patch 17 November 2009 (Update): Expanded the Barrows digging area to the north. It is possible for a brother to spawn again when you kill the first one, then rush quickly to a door nearby. Music unlocked[edit | edit source] The following music tracks are unlocked here: Graphical updates[edit | edit source] Initial in-game appearance of Barrows crypts from Unknown date (edit) Unknown year (edit) (Unknown update (edit)) Appearance of Barrows crypts after Unknown date (edit) Unknown year (edit) (Unknown update (edit)) This information has been compiled as part of the update history project. Either this or the tooth half is given. patch 10 September 2018 (Update): Exiting the secret tunnel in Ahrim's crypt via the rope will now return you to the correct variant of Ahrim's crypt if you have completed the Kindred Spirits quest. From 00:00 UTC 12 November 2011 to 23:59 UTC 14 November 2011, there was an event where players could gain double loot from several dungeons, including the Barrows minigame. The brothers were grievously wounded in battle near the Great Vyrewall, and thus the army set up camp just west of Meiyerditch. Linza informed the World Guardian that they would be waiting in the crypts, eager to battle the player again to improve their skills. Other Barrows equipment[edit | edit source] This table is only rolled if the above table fails due to either failing the roll or not having killed Linza the Disgraced.[1] Only the items of the brothers that were killed are available to be rewarded. It involves defeating the six Barrows brothers, each with their own special strengths and weaknesses. Follower pets (e.g boss pets) cannot be summoned inside the Barrows area. (See Barrows rewards for more information) When you reach the centre chamber, you can attempt to open the final sarcophagus, prompting the last brother to spawn. You must leave this area and dismiss your familiar if you wish to enter." If you use Surge or Escape to get into the mounds with a familiar, a message will say "You cannot enter this area with a familiar. The chance for a crystal triskelion key fragment to drop has been added to the following: the Skeletal horror; Barrows reward chest; catching any butterfly bare-handed. patch 2 March 2015 (Update): Some graphically outdated rocks has been removed from the Barrows tunnels.
